Provide exercises and opportunities that develop the technical and physical skills necessary to progress on each instrument. 2. Provide musical experiences that promote aesthetic growth and expressive skills. 3. Provide exposure to music literature that spans a wide variety of historical periods and cultures. 4. Encourage students to make informed decisions and to take creative “risks” in the development of a musical performance. 5. Offer a wide range of educational opportunities that will accommodate for each individual’s level of development and growth potential. 6. Provide opportunities for public performance. 7. Provide regular feedback regarding the development of both the ensemble and the individual student. 8. Provide opportunities for the students to interact with others that will promote team and leadership skills. 9. Provide experiences that make connections with knowledge from other content areas. 10. Allow the students to examine beauty and express the human experience through music. <p><i>Learner Outcomes (adapted from the Nine National Standards for Music Education):</i></p> <ol style="list-style-type: none"> 1. ---------------------------------	--

- 2. Perform on instruments, alone and with others, a varied repertoire of music.** To demonstrate the physical, technical, and expressive skills necessary to produce a quality musical performance, whether in a solo or ensemble setting, and through variety of literature that reflects many different styles of music.
- 3. Improvise music within specified guidelines.** Demonstrate the ability to spontaneously perform original musical material (within a set of pre-determined parameters), demonstrating an understanding of proper musical form and structure, as well as technical mastery on one's instrument.
- 4. Compose and arrange musical material within specified guidelines.** To demonstrate the ability to produce original, written musical material (within a set of pre-determined parameters), demonstrating an understanding of proper musical form and structure.
- 5. Read and notate music.** To demonstrate the ability to recognize, interpret and recreate the notation symbols found in music, and to write/use those symbols in a musically appropriate manner.
- 6. Listen to, analyze, and describe a musical performance.** To demonstrate the ability - through aural observation - to detect, interpret, and comment upon the musical components that comprise a musical performance.
- 7. Evaluate compositions and music performances.** To demonstrate the ability to make well-informed, substantive comments regarding the musical elements of a written composition or performance, which may include educated suggestions for improvement.
- 8. Understand basic relationships between music, the other arts, and content areas outside of the arts.** To demonstrate the ability to make meaningful connections between elements of music and concepts from other areas of study, ultimately using these connections to draw more meaning from the music and to improve a performance.
- 9. Understand music in relation to history and culture.** To explore how music both reflects and affects the human experience, and how it may do so in the future.
