

The District maintains related service logs that document the type and number of minutes of related service administered under a student's individualized education program (IEP). These related service logs will be available to parents/guardians at a student's annual review IEP meeting. Parents/guardians may also request a copy of any IEP related service log maintained for their child. Please direct any requests for a copy of a related service log for your child to Anne Giarrante, Director of Student Services, at agiarrante@geneva304.org
