RE: Annual Asbestos Management Plan Notice

This is to inform you of the status of Geneva Community School District #304 Asbestos Management Plan(s). It has been determined by the Illinois Department of Public Health and the Federal Environmental Protection Agency that asbestos is a potential health hazard, and precautions should be taken to avoid disturbing any asbestos containing materials.

The AHERA law requires that a visual surveillance of asbestos containing areas be completed every six months, and a re-inspection conducted every three years. As required, Geneva Community School District #304 buildings were inspected for asbestos in June 2022. The three- year inspection was completed January 2022 and will be conducted again January 2025. Any evidence of disturbance or change in condition will be documented in the Management Plan as required.

The Inspection/Management Plan is available for public review at the Coultrap Education Services Center located at 227 N. 4th Street in Geneva, Illinois, 60134. Should you wish to review the plans, please call to make an appointment at (630) 463-3020.
