

Enriching Educational Experiences for Geneva Students

Geneva Academic Foundation (GAF) provides educational experiences and opportunities through student scholarships and classroom grants for technology, programs, and equipment throughout Geneva Community School District 304, grades K–12.

GAF in Geneva is to provide an ongoing bridge to academic enrichment for all students across all schools in the district.

Scholarships

Each year the GAF awards scholarships to graduating Seniors. These scholarships can range between \$1000-2500 for post secondary education. Helping Geneva students reach their goals!

For the 2022-2023 school year eight \$2,500 scholarships were awarded. We are pleased to continue to support our students as they enter this next stage of their education.

Grants

GAF supports students across District 304, with grants funded through the generosity of companies and individuals. These grants allow for the enrichment of educational opportunities for our children. We awarded over \$30,000 for classroom projects this year!

Join us in supporting GAF!
