

# Geneva Early Learning Program Early Childhood Screenings

*For residents of the Geneva School District 304*

During the preschool years, parents often wonder if their child's development is typical of that seen in same age peers. Developmental screenings are designed to address these concerns and help parents learn more about their child's skills.

Geneva CUSD 304 offers free developmental screenings throughout the school year to assess young children's skills. These screenings are conducted by a team of District Educators and Specialists and are available to families living within the Geneva School District whose children are 3 – 5 years of age and do not qualify for kindergarten based on their date of birth.

**Please know that Early Childhood Screenings are NOT kindergarten readiness screenings.**

An Early Childhood Screening assesses your child's development in the areas of:

- **Speech / Language**
- **Fine Motor**
- **Gross Motor**
- **Pre-Academics / Cognition**
- **Social – Emotional**
- **Self – Care**

**Proof of residency is required prior to the screening date.**

A screening takes approximately one hour to complete. Afterwards, parents will have the opportunity to discuss the results of the screening, as well as any concerns about their child, with a member of the screening team.
