# BUDGET PHASES

## Annual Development Components

- A “Preliminary” budget is developed for the Technology, Operations & Maintenance, Transportation and Education Fund components of the budget. These budgetary considerations are used as initial assumptions prior to a complete view of the overall budget is completed. – Timeline adjusted to November – June.
- A “Draft” budget combines all assumptions across all components of the proposed budget and represents the first look at an all encompassing District Budget. – Timeline adjusted to July.
- A “Tentative” budget is required by statute and is made available to interested parties as part of the approval process of a final District budget. This version of the budget builds on the “Draft” budget taking into account newly incorporated data or other improvements made to the previous version. – Timeline adjusted to August.
- The “Final” budget is required to be adopted by the Board of Education no later than the month of September within the fiscal year (June-July) it represents. This “Final” budget further improves upon the “Tentative” budget incorporating the most current data available and final enhancements from the previous version.
