

What do teens say about Snowball?

- "It's a remarkable place. It surrounds you with love, friends, confidence, fun, and support."
- "It lets you release all the stresses and burdens that everyday life puts on a teen."
- "Snowball doesn't end after the retreat. The friendships made there last for years to come."
- "Snowball is about making healthy decisions and being supported the whole time!"

Why Snowball?

"I have a positive impact on you, you have a positive impact on someone else, and it snowballs." Hundreds of events since 1985 and ongoing research show our Snowball effect is real:

- Snowball teens have positive impacts on school peers and their communities.
- Snowball teens make healthy choices about substances and other behaviors.
- Snowball teens' leadership, social skills, collaboration, and self-esteem grow:
 - Making them less susceptible to negative peer pressure.
 - And, well-adapted for life after high school.
